

Night Light Festival Workshop.

This week Firbeck Academy were fortunate to be one of 20 schools from the city to participate in an Eco-art workshop for this year's Light Night Festival which takes place in February.

Local artist Sarah Turner and her assistant Liam came into school to run a workshop for 25 children. Children were selected from Reception to Year 6 to participate

They made leaves from different scrap plastics and beautiful flowers were crafted from plastic bottles.

They were attached to a wooden archway which was illuminated with fairy lights. At the end of the workshop the children could see their lovely creation lit up! It will now be displayed with the others for the Light Night festival, after that it will return to school for our own display.
