

October 2019

Dear Parents and Carers,

We recently invited you to complete our RSE (Relationships and Sex Education) Parental Consultation and would like to thank those who participated.

The consultation included an option to visit school for a briefing, to review the policy and meet with staff.

As a school community we are committed to working in a partnership with parents and all stakeholders within it and, as such, your feedback is invaluable.

The views of the few that took time to respond will be considered within our scheme of work and whilst looking in detail at the content of lessons, creation of new topics and analysing where they will be best placed within our Scheme of Work.

We are currently looking at establishing a series of parental 'Drop-In' sessions throughout the year to keep you abreast of the curriculum focus and what is happening at Firbeck.

If there are any parents/carers or extended family members who either have links to or are professionals themselves within any of our topics, we would love to hear from you!

A strength of our school is our ability to draw of the expertise within our community and for the pupils to hear from sources first hand.

Kind Regards

Mrs V Hayles
Executive Headteacher
Firbeck Academy
