This training helps adults support young people who may need support with regulating their emotions. **Benefits of Emotion Coaching training:** Builds adult competence by providing a consistent framework to support young people to understand their emotions, self-regulate and problem-solve; helps adults to understand and respond to the feelings' underlying behaviour; Emotion Coaching supports young people to improve and take ownership of their behaviour; promotes positive relationships between adults and young people.

**Thursday 4<sup>th</sup> May - Emotional Regulation Coffee Morning** - The Zones of Regulation is a complete social-emotional learning curriculum, created to teach children self-regulation and emotional control which Firbeck implemented in Spring Term. There are four zones. This short course will give you an overview to The Zones of Regulation and how you can support your child at home to understand and manage their emotions.

**Tuesday 18<sup>th</sup> & Wednesday 19<sup>th</sup> April** - Our **POP** (Power of Parenting) sessions for F2, year 1 and 2 are held to give you the most up to date information regarding your child's learning to be able to support their learning at home too.

Thank you for your continued support,

Miss Snell
